Caring & Professional  
Family Dentistry

Dear Parents and Caregivers,

Welcome to our practice!

We are pleased to welcome you to our practice and thank you for selecting our office to evaluate and care for the dental needs of your child.

We strive to ensure positive dental experiences in our office. We ask for your cooperation in helping to develop a constructive environment for your child.

It is our preference that in most cases you accompany your child to his/her restorative and exam appointments. If you choose to be present, we suggest the following guideline to improve the chances of a positive outcome:

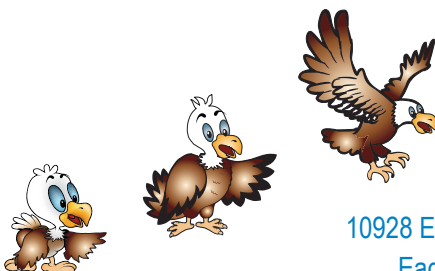

- Allow us to prepare your child.
- Be supportive of the practice's terminology.
- Be a silent observer and support your child with gentle touches at their feet.
  - √ This allows us to maintain communication with your child.
  - √ Children will normally listen to their parents over the dental team and may not hear our guidance.
  - √ Incorrect or misleading information may be inadvertently given.
  - √ We will continue to support your child at all times to render the best dental care possible.

These are very important ways that we believe can actively help in the success of your child's visit. It is our hope that these guidelines will help prepare your family with the confidence for their upcoming dental visit. Thank you again. If you ever have any questions, please do not hesitate to ask.

Sincerely,

Sheva Nickravesh and the Eagle Summit Pediatric Dentistry Team.
